The diagram illustrates a sequence of seven red rectangular blocks connected by horizontal lines, with blue rectangular blocks branching off to the right from each red block. The blocks are arranged in a descending staircase pattern from left to right. The first red block is at the top left, and the last red block is at the bottom right. Each red block has a blue block branching off to its right. The blue blocks are also arranged in a descending staircase pattern. The final blue block is connected to a grey rectangular block at the bottom right.

The diagram illustrates a sequence of events or a process flow, represented by a series of rectangular blocks connected by horizontal lines. The blocks are arranged in a descending staircase pattern from left to right. The blocks are color-coded: red and blue. The final blocks on the right are labeled with names and flags: 'Stas Dimitri (BEL)', 'STAICU CALINESCU PETRU (ROU)', 'STAICU CALINESCU PETRU (ROU)', and 'EDUARD OPRICA (ROU)'. There are also numerical values like '0', '1', '5', and '1' associated with some of the final blocks.
